AMENDMENT

20 Assistant Commissioner of Patents and Trademarks
Washington, DC 20231

Sir:

In response to the office action mailed June 22, 1998, please amend the above
25 referenced application as follows:

In the Specification:

Add the following abstract:

--ABSTRACT

30 The invention provides a Narrowband Video Codec 10. The codec is powered
by a battery 12 and includes a television camera 14 a monitor 16, and a headset 18. The
codec generates a bit stream of multiple bytes of control data, video, audio and error
correction bits. The bit stream is formatted into frames for transmission as signals 32
over a narrowband frequency link by radio 30. The frame format includes bytes of audio
and video data. The Codec emulates a disk access system for handling compression and
decompression of data.--
